

Resolution #22-18

EMMET COUNTY, IOWA PROCUREMENT POLICY

PURPOSE

The purpose of this procurement policy is to ensure that sound business judgement is utilized in all procurement transactions and that supplies, equipment, construction and services are obtained efficiently, economically and in compliance with applicable federal and state law and executive orders and to ensure that all procurement transactions will be conducted in a manner that provides full and open competition.

APPLICATION

This policy applies to the procurement of all supplies, equipment, construction and services of and for Emmet County that include any federal program funding, including but not limited to, those related to the implementation and administration of the Community Development Block Grant (CDBG) award, the Pre-Hazard Mitigation Grant or the Emergency Management Planning Grant (EMPG). In regards to any such federal programs, all procurement will be done in accordance with the applicable provisions of C2 CFR 200.216 and 2 CFR 200.317 through 200.327. This applies to all federally and to non-federally funded programs unless found in conflict with procurement procedures required in Iowa law.

POLICY

METHODS OF PROCUREMENT

Procurement under grants shall be made by one of the following methods: (a) micro purchases; (b) small purchase procedures; (c) sealed bids (formal advertising); (d) competitive proposals; (e) noncompetitive proposals.

- A. Micro purchase procedures 2 CFR 200.320(a) are for the acquisition of supplies or services when the aggregate dollar amount does not exceed \$10,000 unless otherwise stated in 48 CFR 2.101. These purchases may be awarded without soliciting competitive quotes if the entity considers the price reasonable, keeping in mind that multiple purchases throughout the year must be equitably split among all qualifying vendors.
- B. Small purchase procedures 2 CFR 200.320(b) are those relatively simple and informal procurement methods that are sound and appropriate for the procurement of services, supplies, or other property, costing in aggregate not more than \$250,000, 2 CFR 200.88 for federal programs. If small purchase procedures are used for a procurement under a grant, price or rate quotation shall be obtained from an adequate number of qualified sources (minimum of 2).
- C. Sealed bidding (formal advertising) procurement 2 CFR 200.320(c), is publicly solicited sealed bids in order to award a firm-fixed-price contract (lump sum or unit price) to the responsible bidder whose bid, conforming with all the material terms and conditions of the invitation for bids, is the lowest in price. The sealed bid method is the preferred method for procuring construction.
 1. In order for sealed bidding to be feasible, appropriate conditions must be present, including, at a minimum, the following:
 - a) A complete, adequate and realistic specification or purchase description is available.
 - b) Two or more responsible bidders are willing and able to compete effectively for Emmet County business.

- c) The procurement lends itself to a firm-fixed-price contract, and the selection of the successful bidder can be made principally on the basis of price.
2. When sealed bidding is used for a procurement under a grant, the following requirements apply:
- a) A sufficient time prior to the date set for opening of bids, bids shall be solicited (publicly advertised) from an adequate number of known suppliers.
 - b) The invitation for bids, including specifications and pertinent attachments, shall clearly define the items or services needed in order for the bidders to properly respond to the invitation for bids.
 - c) All bids shall be opened publicly at the time and place stated in the invitation for bids.
 - d) A firm-fixed-contract award shall be made by written notice to that responsible bidder whose bid, conforming to the invitation for bids, is lowest. Where specified in the bidding documents, factors such as discounts, transportation costs, and life cycle costs shall be considered in determining which bid is lowest. Payment discounts may only be used to determine low bid when prior experience of Emmet County indicates that such discounts are generally taken.
 - e) Any or all bids may be rejected if there are sound documented business reasons in the best interest of the program.
- D. Competitive proposal procurement 2 CFR 200.320(d) is normally conducted with more than one source submitting an offer, and either a fixed-price or cost-reimbursement type contract is awarded, as appropriate. Competitive proposals are generally used when conditions are not appropriate for the use of sealed bids. If the competitive proposals method is used for a procurement under a grant, the following requirements apply:
- 1. Request for Proposals (RFP) shall be publicized and identify all evaluation factors and their relative importance. Any response to publicized requests for proposals shall be considered to the maximum extent practical.
 - 2. RFP shall be solicited from an adequate number of qualified sources;
 - 3. Emmet County shall have a written method for conducting evaluations of the proposals received and for selecting awardees.
 - 4. Awards will be made to the responsible offeror whose proposal will be most advantageous to Emmet County, with price (other than architectural/engineering) and other factors considered. Unsuccessful offerors will be promptly notified in writing.
 - 5. Emmet County may use competitive proposal procedures for qualifications-based procurement of architectural/engineering (A/E) professional services whereby competitors' qualifications are evaluated and the most qualified competitor is selected, subject to negotiation of fair and reasonable compensation. The method, where price is not used as a selection factor, can only be used in the procurement of A/E professional services. It cannot be used to procure other types of services (e.g., administration professional services) even though A/E firms are a potential source to perform the proposed effort.
 - 6. Evaluation criteria for Emmet County in the procurement of professional services shall be in accordance with 2 CFR, Part 200. The following factors will be used to evaluate the proposals or requests for qualifications when the "competitive proposals" method of procurement (used for the procurement of professional services) is utilized to select awardees.
 - a) The firm's past experience with similar projects.
 - b) Recipient's familiarity with the firm
 - c) The firm's availability of staff/capability of staff.

- d) The firm's technical and financial resources.
 - e) The firm's geographic location.
 - f) The firm's ability to complete projects in a timely manner and within budgetary constraints.
 - g) The firm's integrity and compliance with public policy.
 - h) The firm is not on county, State of Iowa, HUD's or DOL's debarred or suspended lists.
 - i) Cost or anticipated compensation.
- E. Noncompetitive proposal procurement 2 CFR 200.320(f) is procurement through solicitation of a proposal from only one source. Circumstances under which a contract may be awarded by noncompetitive proposals are limited to one or more of the following:
- 1. The item is available from only a single source.
 - 2. After solicitation of a number of sources, competition is determined inadequate.
 - 3. A public exigency or emergency exists when the urgency for the requirement will not permit a delay incident to competitive solicitation.
 - 4. The awarding agency authorizes noncompetitive proposals. (Sole source procurement for supplies, equipment, construction, and services valued at \$25,000 or more must have prior approval of the awarding agency.)

Emmet County will take affirmative steps to assure, to the greatest extent possible, that contracts are awarded to qualified small and minority firms, women's business enterprises, and labor surplus area firms whenever they are potential sources. 2 CFR 200.321

These affirmatives steps must include:

- A. Placing qualified small and minority businesses and women's business enterprises on solicitation lists.
- B. Assuring that small and minority businesses, and women's business enterprises are solicited whenever they are potential sources.
- C. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises.
- D. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises;
- E. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce.
- F. Requiring the prime contractor, if subcontracts are to be let, to take the affirmative steps listed in paragraphs (a) through (e).

Micro Purchase Procedures

This method applies to the purchase of supplies or services when the aggregate dollar amount does not exceed \$10,000. FEDERAL REGULATIONS

§ 200.322 Domestic preferences for procurements

- a) As appropriate and to the extent consistent with law, the non-Federal entity should, to the greatest extent practicable under a federal award, provide a preference for the purchase, acquisition, or use of goods, products, or materials produced in the United States (including but not limited to iron, aluminum, steel, cement, and other manufactured products). The requirements of this section must be included in all subawards including all contracts and purchase orders for work or products under this award.
- b) For purposes of this section:
 - 1) "Produced in the United States" means, for iron and steel products, that all manufacturing processes, from the initial melting stage through the application of coatings, occurred in the United States.
 - 2) "Manufactured products" means items and construction materials composed in whole or in part of non-ferrous metals such as aluminum; plastics and polymer-based products such as polyvinyl chloride pipe; aggregates such as concrete; glass, including optical fiber; and lumber.

§ 200.323 Procurement of recovered materials

A non-Federal entity that is a state agency or agency of a political subdivision of a state and its contractors must comply with section 6002 of the Solid Waste Disposal Act, as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 CFR part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds \$10,000 or the value of the quantity acquired during the preceding fiscal year exceeded \$10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

§ 200.325 Federal awarding agency or pass-through entity [HSEMD] review

- a) The non-Federal entity must make available, upon request of the Federal awarding agency or pass-through entity, technical specifications on proposed procurements where the Federal awarding agency or pass-through entity believes such review is needed to ensure that the item or service specified is the one being proposed for acquisition. This review generally will take place prior to the time the specification is incorporated into a solicitation document. However, if the non-Federal entity desires to have the review accomplished after a solicitation has been developed, the Federal awarding agency or pass-through entity may still review the specifications, with such review usually limited to the technical aspects of the proposed purchase.
- b) The non-Federal entity must make available upon request, for the Federal awarding agency or pass-through entity pre-procurement review, procurement documents, such as requests for proposals or invitations for bids, or independent cost estimates, when:
 - 1) The non-Federal entity's procurement procedures or operation fails to comply with the procurement standards in this part;
 - 2) The procurement is expected to exceed the Simplified Acquisition Threshold and is to be awarded without competition or only one bid or offer is received in response to a solicitation;
 - 3) The procurement, which is expected to exceed the Simplified Acquisition Threshold, specifies a "brand name" product;
 - 4) The proposed contract is more than the Simplified Acquisition Threshold and is to be awarded to other than the apparent low bidder under a sealed bid procurement; or
 - 5) A proposed contract modification changes the scope of a contract or increases the contract amount by more than the Simplified Acquisition Threshold.
- c) The non-Federal entity is exempt from the pre-procurement review in paragraph (b) of this section if the Federal awarding agency or pass-through entity determines that its procurement systems comply with the standards of this part.
 - 1) The non-Federal entity may request that its procurement system be reviewed by the Federal awarding agency or pass-through entity to determine whether its system meets these standards in order for its system to be certified. Generally, these reviews must occur where there is continuous high-dollar funding, and third-party contracts are awarded on a regular basis;
 - 2) The non-Federal entity may self-certify its procurement system. Such self-certification must not limit the Federal awarding agency's right to survey the system. Under a self-certification procedure, the Federal awarding agency may rely on written assurances from the non-Federal entity that it is complying with these standards. The non-Federal entity must cite specific policies, procedures, regulations, or standards as being in compliance with these requirements and have its system available for review.

§ 200.326 Bonding requirements

For construction or facility improvement contracts or subcontracts exceeding the Simplified Acquisition

Threshold, the Federal awarding agency or pass-through entity may accept the bonding policy and requirements of the non-Federal entity provided that the Federal awarding agency or pass-through entity has made a determination that the Federal interest is adequately protected. If such a determination has not been made, the minimum requirements must be as follows:

- a) A bid guarantee from each bidder equivalent to five percent of the bid price. The “bid guarantee” must consist of a firm commitment such as a bid bond, certified check, or other negotiable instrument accompanying a bid as assurance that the bidder will, upon acceptance of the bid, execute such contractual documents as may be required within the time specified.
